BELGIAN STONE

FASCINO INFORMALE

Effetto pietra in stile nordeuropeo

INFORMAL ALLURE

A stone look with a Northern European style

La texture di **BELGIAN STONE** si ispira a varietà lapidee sedimentarie, pietre di origine belga e shellstones. La presenza di sottili venature a contrasto, fossili e anticature, ne arricchisce l'aspetto facendone una proposta di gusto rustic-chic, che si sposa con le superfici dal carattere più marcatamente Flaviker, come gli effetti legno, i cementi e i metalli di ispirazione industrial.

COLORS

FORMATI / SIZES

The texture of BELGIAN Stone is inspired by sedimentary rocks such as Belgian stone and shellstones. The presence of subtle contrasting veins, fossils and antique effects enhances its appearance, giving it a rustic-chic look that fits in well with Flaviker's more characteristic surfaces such as wood, concrete and industrial-inspired metal effects.

MULTIPLE SENSATIONS

The different material effects available in the range make these collections ideal for customizing any space. Stone, wood and metal alternate with design surfaces reminiscent of industrial concrete.

POSA TRADIZIONALE
la posa tradizionale è ideale per la realizzazione di pavimentazioni carrabili.

TRADITIONAL INSTALLATION
traditional installation is ideal for floorings that will be driven over by vehicles.

POSA A SECCO SU GHIAIA
La posa su ghiaia permette il perfetto drenaggio delle acque piovane.

DRY INSTALLATION ON GRAVEL
Installing on gravel enables perfect drainage of rainwater.

POSA A SECCO SU ERBA
La posa diretta su erba permette di creare percorsi e camminamenti integrandosi perfettamente nell'ambiente.

DRY INSTALLATION ON GRASS
Installing directly on top of grass enables the creation of paths and walkways that blend in perfectly with the surroundings.

POSA A SECCO SU SABBIA
La posa su sabbia permette di creare percorsi e camminamenti per spiagge e stabilimenti balneari.

DRY INSTALLATION ON SAND
Installing on top of sand is ideal for creating paths and walkways on beaches and beach bars.

POSA SOPRAELEVATA DA ESTERNO

Il sistema di pavimentazione sopraelevata prevede l'utilizzo di supporti portanti di tipo autolivellante, regolabili oppure fissi che si adattano con semplicità e sicurezza ad ogni tipo di pavimento sottostante. Il sistema permette la realizzazione di piani di posa con altezze variabili, da terra, comprese fra 25 e 270 mm. L'indipendenza della pavimentazione dai supporti garantisce l'assorbimento di eventuali movimenti strutturali. Il sistema sopraelevato non necessita di massetto in cemento e consente una diminuzione del peso sulla struttura portante. Le fughe aperte tra una piastrella ed un'altra consentono un facile deflusso dell'acqua piovana evitando tutti i rischi di accumulo o di ristagno. La presenza dell'intercapedine fra il piano di calpestio e il piano di appoggio favorisce l'aerazione e l'isolamento termico. Questa soluzione permette inoltre il passaggio di impianti e tubazioni nell'intercapedine, e la facile ispezione degli stessi una volta installata la pavimentazione.

OUTDOOR RAISED LAYING SYSTEM

The raised floor system foresees the use of self-levelling, adjustable or fixed load bearing supports that easily adapt to the floor below in total safety. The system is suitable to create laying designs with variable heights from the ground, which range between 25 and 270 mm. The independence of the flooring from the supports guarantees the absorption of any structural movements. The raised system does not require a cement screed and reduces the load on the bearing structure. The open joints between the tiles allow rainwater to easily drain off, avoiding any risk of water accumulation or stagnation. The gap between the tread surface and the support surface favours ventilation and heat insulation. This solution allows for the installation of systems and piping in the gap, which can be easily inspected even once the floor has been installed.

I pezzi speciali, per effetto delle lavorazioni, possono presentare variazioni di tonalità. Due to working process, special trims may show variations in tonality.
L'unità minima di vendita per tutti gli articoli (fondi, decori e pezzi speciali) è la scatola completa. The minimum sales quantity for all items (plain tiles, decorations and special trims) is one full box.
I dati relativi agli imballi sono aggiornati al momento della stampa del catalogo e pertanto possono subire variazioni nel corso del tempo.
Data referring to packaging have been update at time of printing; the actual data may be slightly different.
